

2 Days Training Course on Lab Management System in accordance to ISO 17025:2017

What is ISO/IEC 17025

ISO/IEC 17025 is useful standard for **any organization/lab that performs testing, sampling or calibration and wants reliable results.** This includes all types of laboratories, whether they be owned and operated by government, industry or, in fact, any other organization. It confirms that a particular laboratory is able to produce precise and accurate test results and calibration data, including: Traceability of measurements and calibrations to national standards.

Why should you attend?

ISO 17025 training course enables you to comprehend the basic concepts to implement and achieve the best level of quality in the lab.

By attending the ISO 17025 Training course, you will understand the important aspects of quality involved.

Who should attend?

Attendees would include staff involved with the standard and staff members who are potentially seeking accreditation. This could include top-level management that will need a fundamental understanding, as well as junior staff simply needing an overview of the standard. Individuals new to a company can also gain perspective in this course.
